

Changes in IL Course due to the Transition to Web-Scale Discovery

Hana Janeckova
Brno University of Technology, Czech
Republic

F2F

- ◉ EIR (databases, reference managers, Primo)
- ◉ General principles (searching, referencing)
- ◉ 1st year students, Ph.D., anyone

E-learning for Ph.D. students

- EIR
- Referencing
- Writing & publishing scientific articles

Feedback

- ◉ Questionnaire
- ◉ Pre/post-testing
- ◉ Usability testing!

Methodology

- 3 x 5 students
- Rewards
- Adobe Captivate
- 30-50 minutes

Methodology

- To find different types of sources for writing a thesis.
- To find particular article & save it to e-Shelf

Methodology

- To find particular book in library catalogue & place request on it
- + questioning

Hypotheses

- Students who have studied Primo tutorial will use the system faster and more effective

Hypotheses

- Students who have had IL course will have less problems finding needed information

Hypotheses

- There are still some features of Primo that needs to be explained

Results

- Time, results – students who have finished IL course completed the best
- Don't know how to search!

Results

- ⦿ Differences between sources
- ⦿ Paper vs online documents
- ⦿ Topic vs particular document

Results

- Mother tongue
- Google style
- First results, title

Further changes

- ◉ Focus more on searching!
- ◉ Knowledge organisation
- ◉ Again, again, again
- ◉ Anywhere, anytime
